Career Objective

Enthusiastic and detail-oriented full-stack developer with a strong foundation in MERN stack and a passion for solving real-world problems. Seeking to contribute to innovative projects in companies by leveraging skills in software engineering, DSA, and agile development.

Experience

Web Developer intern at NSPA Global, 2025

Feb 2025- April 2025

- Worked on a Maid Hiring Website as part of the development team.
- Developed a fully responsive web application using ReactJS, JavaScript, Node.js, Express.js, and MongoDB.
- Collaborated closely with frontend, backend developers and designers to implement dynamic features and enhance user experience.

Technical Skills

- Front-End -: HTML, CSS, JavaScript, Bootstrap, ReactJS.
- Back-End -: Node.js, Express.js, JavaScript.
- Database -: MongoDB.

Projects

1) Rental Application

- Description: Designed and developed a full-stack rental application for renting cars and equipment, such as cameras and drones. The platform allows users to search, book, and manage rentals, ensuring a seamless experience for both customers and providers.
- Technologies Used: HTML, CSS, ReactJS, JavaScript, MUI, Node.js, Express.js, MongoDB.

2) Maid Hiring Website

- Designed and developed a full-stack web application focused on connecting users with maid services. The platform enables users to search, view profiles, and hire maids based on their requirements, ensuring a seamless and efficient experience for both service seekers and providers.
- Technologies Used: HTML, CSS, ReactJS, JavaScript, Node.js, Express.js, MongoDB.

3) Fertilizer Predictor

- Description: Developed as part of the Smart India Hackathon (SIH), this web-based application predicts the most suitable fertilizer for crops based on soil conditions and environmental factors.
- Technologies Used: HTML, CSS, JavaScript, Python, Flask, MySQL.

Education

International Institute Of Information Technology, Pune

BE in Information Technology

Nov-2022 - Present

SGPA-8.74
